2. It is the Board’s policy to place idle funds in relatively risk-averse assets that will provide the highest return possible while meeting the cash flow demands of the library and conforming to statutes governing the investment of public funds.
3. When selecting financial institutions and investment instruments for library funds, the following general objectives and guidelines should be considered in the order listed:
  - i. Legality and Safety. The primary considerations for library investments are their legality under Illinois law and their safety, the standard for which is the preservation of principal. Investments will be made only in securities guaranteed by the United States Government or in institutions insured by the Federal Deposit Insurance Corporation (FDIC). Accounts in banks or savings and loan institutions will not exceed the amounts insured under FDIC coverage, unless they are adequately collateralized.
  - ii. Liquidity. The types and lengths of investments should be managed to insure that the library is able to meet the cash flow requirements for ongoing operations and capital expenditures.
  - iii. Return on investment. Within the constraints imposed by considerations of legality, safety, and liquidity, every effort should be made to achieve a maximum return on investments. All available funds will either be invested or kept in interest bearing deposit accounts.
  - iv. Simplicity of management. The Treasurer, Executive Director, and other designated administrative staff must be able to manage library investments effectively and efficiently within the time constraints imposed by other responsibilities and the limitations imposed by their respective levels of financial expertise.

E. Investment Instruments

1. Authorized investments will be limited to the instruments listed below:
  - i. Treasury bills, bonds, or other securities issued and guaranteed by the United States Government, its agencies, or instrumentalities.

Diversification strategies shall be determined and revised periodically by the Treasurer, with the advice and counsel of the Board's Finance Committee.
  - 2. The principle of diversification shall be applied in accordance with the following parameters:

- G. Collateralization and Safekeeping
- 1. Time deposits in excess of FDIC insurable limits must be secured by collateral or private insurance. Eligible collateral instruments are any investment instruments acceptable under the Illinois Public Funds Investment Act. The collateral must be placed in safekeeping at or before the time the library makes the investment(s).
  - 2. Third-party safekeeping is required for all collateral. To accomplish this, the securities serving as collateral must be held at one or more of the following locations: [1] a Federal Reserve Bank or its branch office; [2] another custodial facility in a trust or safekeeping department through book-entry at the Federal Reserve; [3] an escrow agent of the pledging institution; or [4] the trust department of the issuing bank. Safekeeping will be documented by an approved written agreement that complies with FDIC regulations. Substitution or exchange of collateral held in safekeeping for the library can be approved exclusively by the Treasurer, and only if the market value of the replacement collateral is equal to or greater than that of the collateral being replaced.
- H. Authorized Financial Institutions
- 1. Financial institutions shall be considered and authorized only by action of the Board, upon recommendation of the Treasurer.
  - 2. Any financial institution selected by the library shall provide normal banking services, including but not limited to: NOW accounts, wire transfers, and safekeeping services. The library will not keep funds in any financial institution that is not a member of the FDIC.

They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Except as permitted under the Public Officer Prohibited Activities Act, no officer or employee involved in the investment process shall have any interest in, or receive any compensation from, any investments in which the library invests, or the sellers, sponsors, or managers of those investments.
